REPORT OF WATER COMMISSIONERS

To the Citizens of Newport:

The Water Commissioners submit herewith the Annual Report for the year ending January 31, 1943, in form as prescribed by the Public Service Commission.

An inventory of Materials and Supplies was taken in October, 1942. This is the first actual count of inventory since 1936. As a result, it was necessary to make an adjustment of \$1,062.29 to reduce the Book Inventory to the Actual Inventory.

During the year, there were no major repairs or capital expenditures.

The actual cash received during the year and turned over to the Town Treasurer was as follows:

Water Rents	\$ 20,625.74
Labor and Materials	389.68
	<hr/>
Total	\$ 21,015.42

JOHN J. CONDON,
JOHN W. McCRILLIS,
ARTHUR G. WINTER,
Commissioners.

SOPHIE A. GURETSKA,
Clerk.

HEALTH OFFICER'S REPORT

To the Selectmen of Newport:

I herewith submit my report as Health Officer of the Town of Newport since my appointment, Sept. 1, 1942. It is gratifying to note that to date Newport has not felt the pressure of epidemics as have several of our surrounding towns. When I was appointed we had in Newport three cases of scarlet fever under quarantine but I am glad to say that it did not spread and as all cases were very light no ill effects were suffered in any of the cases.

I wish at this time to thank the doctors for the manner in which they have cooperated and also the members of our School system, by whose cooperation with the district nurse and this department, we hope to keep our town free of epidemics of contagious diseases.

There have been three cases of venereal diseases reported to me and these cases were checked to be sure they were being treated.

I am afraid that a few of our citizens do not realize that we have a garbage collector and that garbage should be kept separate to be called for by the collector and not sent to the town dump with other refuse. I was informed by Mr. Arthur L. Gamash, the gentleman in charge of our town dump, that people living outside of Newport caused him the most trouble. I wish to state that the wonderful condition that is found at the dump is made only thru long hours and hard work put in by Mr. Gamash.

The usual routine of inspecting barns, milk rooms and sanitary conditions was made by this office with a member of the State Board and samples of milk were sent to the State Board of health to be analyzed. Seventeen dealers that were visited and samples taken showed by analysis that the sources from which our milk supply comes is very good and in most all cases there were no criticisms from our State Board of Health.

During the year 1942 the State Board of Health in cooperation with the local Public Health Nurse and the Newport Public Health Nurse Commission held a Dental Clinic and a Diphtheria Immunization Clinic. Twenty-six children of pre-

school age received the following corrections: 19 cleanings; 33 fillings; 62 silver nitrate treatments and 3 extractions. A total of 209, 6 infants, 53 pre-school and 150 school children received the immunization treatment for the prevention of Diphtheria.

The New Hampshire Tuberculosis Association with the support of a loyal people, carries on, determined not only to hold our gains in the fight against tuberculosis but to continue progress toward eradication of the disease, as a vital contribution to the winning of the war.

The year's service is as follows: Two free diagnostic tuberculosis clinics held at the court room, and a special X-ray of chest, clinic. At these clinics 105 persons have had a chest examination. Ninety persons, adult and children, were given the "Vollmer" tuberculin test, and 27 persons have had the benefit of X-ray of chest. As a result five new cases of tuberculosis were found, and 10 children showed signs of a childhood type of the disease. Two children and six adults have received treatment at sanatoria, 96 patients are under supervision of the clinic and a follow-up service in the home.

We welcome this opportunity to thank the people of Newport who have loyally supported this campaign throughout the years. We also wish to extend our grateful appreciation to the hospital, physicians, nurses and all others who have helped to ensure the success of New Hampshire's fight against tuberculosis.

Respectfully submitted,

RICHARD P. DONOVAN,

Health Officer.

REPORT OF POLICE DEPARTMENT

Report of Police Department from Feb. 1, 1942 to Feb. 1, 1943

An interesting fact is the drop in the number of transients from 315 last year to 200 this present year.

A bad feature is the increase in drunks from 80 to 113.

While we print no record we can say there is a large increase in juvenile delinquency.

These facts are caused in my opinion by the war which has caused a shortage of labor, higher wages, and so many mothers working away from the home.

REPORT OF CHIEF OF FIRE DEPARTMENT

To the Selectmen of Newport:

I herewith submit my report of the activities and condition of the Fire Department and the condition of the apparatus.

During the year the Department has responded to 177 calls as follows: 20 bell alarms, 150 still alarms, 7 brush fires. Of these, ten were for out of town assistance.

The equipment and apparatus is in good condition and there is no necessity for any extensive outlay during the coming year, barring, of course, accidents. The department should be furnished with a new piece of apparatus in the near future as the present equipment is overloaded and is liable to breakage by reason of this condition.

Our fire losses were increased this year owing to the large loss in the Johnson Block.

I wish to thank the Selectmen and the members of the Department for their loyal support during the past year.

Respectfully submitted,

GEORGE E. LEWIS,

Fire Chief.

SUPERINTENDENT'S REPORT

To the Newport School Board:

I herewith submit my ninth annual report as Superintendent of Schools.

WAR CONDITIONS

The impact of war has of course made itself felt on the schools. Many pupils have entered the service or commercial employment. All boys are now planning to enter the armed forces since the draft age has been lowered to 18 years. The girls are considering the women's auxiliary services or other form of war emergency work. Therefore the usual plans for advanced education or life vocation have been seriously interrupted. But the spirit of the young folks is excellent and they are ready to do their part whatever it may be. The morale of the pupils is in general very good and there is increased interest in current events and geography.

On the other hand some pupils reflect the attitude of those adults who criticize and disregard laws and regulations. Discipline at times becomes more of a problem.

Making daylight-saving time permanent is a marked disadvantage to schools. It is dark when many children get up to go to school. Frequently they do not have time for a decent breakfast. Tardiness increases. Since school starts before the sun sheds much light it is necessary to have electric lights on a large part of the morning. For these reasons it would at first thought seem desirable to change the hours of school. It is not, however, a simple matter to do that. One school bus has to make a commercial trip to Claremont at 8:20. This would be impossible if the buses were not through delivering children to school until 9:00 o'clock or later. The schedules of classes at Towle and Richards Schools have to harmonize for shop and domestic arts classes. This would require closing the morning session about 12:30, which would be an inconvenient time for the noon meal. It therefore seemed best to keep on the regular schedule and make the best of a situation which is admittedly unsatisfactory.

Pupils in all schools have been buying war savings stamps each week and have made a very good record. In many cases it meant going without things which they would otherwise have purchased. They have rendered a helpful service to the country

and developed a sense of thrift. The total sales for the fall term, 1942, were \$3,215.45 divided among the schools as follows: Towle \$1,280.95, Richards \$1,033.55, Primary \$772.30, Guild \$38.20, Kelleyville \$39.85, and North Newport \$50.60.

Pupils also participated in the salvage collection, bringing in waste paper, tin cans, junk, keys, etc.

There has been a new emphasis on citizenship and current events in all grades and on science and mathematics in high school.

Air-raid drills have been organized and practiced. On the signal for an air-raid pupils are either sent home or to the safest place in the school building according to the request of parents.

Shop classes have made some model airplanes for use by the government in training air cadets.

Teachers and other citizens have assisted in the registration connected with the rationing of sugar, gasoline, and fuel oil.

Last summer there was again a large number of changes in the corps of teachers, 15 out of 36. Mr. Ernest M. Perkins entered the Army Air Corps and Mr. Orimer E. Bugbee the Navy. Miss Lillian Henault and Miss Louise Kelley joined the Women's Auxiliary Army Corps. Mr. Malcolm W. Rowell was transferred from the Richards Junior High School to the Towle High School. Mrs. H. Eileen Ketchen was transferred from Grade 6 to Grades 7 and 8 as instructor in English. Miss Winifred Little was transferred from the Guild School to the Primary School, Grades 1 and 2.

TRANSPORTATION

On orders from the government all bus routes were shortened to save gasoline and tires, in such a way that no child had to walk over one and one-half miles. Routes were approved on the basis of reports and maps submitted. This resulted in longer walks for some pupils.

The greater part of our school transportation is handled by Mr. Spyros Condos who also runs several commercial routes, using the same buses. This double use of the same equipment is unsatisfactory when, as was the case for quite a period, one or more of the buses is laid up for repairs. In the interest of better and less expensive operation I strongly recommend that the school district own and operate its own buses as soon as they can be purchased.

REPAIRS

Few repairs of any magnitude were made last summer. The

auditorium at Towle was re-painted. New cement steps were made and part of the walk repaired at the Richards School.

GIFTS

By the terms of the last will and testament of the late George B. Wheeler, of Newport, N. H., one-half of his residuary estate was bequeathed to the Newport School District and the other half to the Carrie F. Wright Hospital. It was Mr. Wheeler's desire that the School District use this bequest for a building, or buildings, and not for current expenses. The following resolution of appreciation was presented and adopted at the annual meeting of the Newport School District, March 7, 1942:—

Whereas, The Last Will and Testament of George B. Wheeler, late of Newport, New Hampshire, contains a bequest or devise in favor of the School District of the Town of Newport, New Hampshire, consisting of one-half of the residuary estate of said George B. Wheeler, to be used for the purpose of furthering the educational advantages in said School District, and

Whereas, The School Board of the Town of Newport, has been duly authorized and directed to accept such bequest or devise in behalf of the School District of the Town of Newport, and

Whereas, The inhabitants of said School District desire to acknowledge such gift,

Now Therefore Be It Resolved, That this manifestation of generosity on the part of the late George B. Wheeler is deeply appreciated and that the inhabitants of the School District of the Town of Newport, New Hampshire, hereby express their sincere thanks for this magnificent gift, and be it

Further Resolved, That the foregoing preamble and these resolutions be spread upon the records of the School District of the Town of Newport and copies thereof furnished the newspapers for publication.

JOHN J. CONDON, Chairman

JOHN G. POWERS

ALEXANDER M. BLACKBURN, JR.

At the same meeting the following action was taken in reference to this bequest:—

RESOLUTION UNDER ARTICLE 10:

Resolved that the School Board of the Town of Newport, New Hampshire, be and hereby is authorized and directed to accept in behalf of the School District of the Town of Newport,

New Hampshire, and subject to the limitations set forth in the Last Will and Testament of George B. Wheeler, late of Newport, New Hampshire, the bequest and/or devise contained in said Last Will and Testament and consisting of one-half of the residuary estate of said George B. Wheeler, to be used for the purpose of furthering the educational advantages in said School District, the limitations being that it shall not be used to pay indebtedness existing at the time of his decease or for the payment of current expenses.

The last will of the late Emily A. Spooner of Newport, New Hampshire, left the residual estate to establish the Isaac C. and Emily A. Spooner Loan Fund for students in post-secondary institutions. The awarding of loans is left to the Superintendent of Schools and Headmaster of the High School.

I want to express my deep appreciation of the fine cooperation of all my co-workers.

Respectfully submitted,

ALFRED W. SMITH,
Superintendent of Schools.

REPORT OF THE HEADMASTER OF TOWLE HIGH SCHOOL

January 1, 1943

Superintendent A. W. Smith,
Newport, New Hampshire.

Dear Sir:

I am happy to report to you on the educational progress of the past year at Towle High School. A supplement of statistical tables is attached which includes the following:

Table I	Enrollment by Grades
Table II	Tuition Pupils
Table III	Attendance Record
Table IV	Test Record
Table V	Honors List—Class of 1942
Table VI	Perfect Attendance 1941-42
Table VII	Post-Secondary Statistics
Table VIII	Financial Report
Table IX	Prize Speaking Contest
Table X	What the Faculty is Doing in Connection with Various kinds of War Work
Table XI	Towle Graduates in Service (complete as far as possible)

Due to the war, changes have been made and are being made in our scholastic offerings which will eventually better prepare the boys and girls for their work whether it be in the service or in other fields which are very necessary today. For some of the slower students remedial classes in English, mathematics, and some of the foreign languages are being offered. At the present writing, we hope to offer one of the following courses, if not all of them, beginning the second semester for boys interested in radio, elementary aviation, and higher mathematics. In the physics class, the instructor has been weaving into his course more than he has done in the past some fundamentals of aviation. We are handicapped, however, with the lack of rooms, limited number of faculty members, and equipment to carry this type of educational program along as we would like to.

Since the opening of school on September 9 to the end of the year 1942, there have been several social affairs held in the Chellis Auditorium. The chaperons for these affairs have been parents of some of the students as well as members of the faculty. Two reasons for having parents as chaperons are: first, that we wanted to have them observe the fine way the students behave in their social activities in school and second, it will release the teachers from attending too many of these socials as the students see them every school day.

I regret that more parents haven't taken the opportunity to attend these social affairs. This is a standing invitation to any social affairs for the parents to attend. The students all have a fine time and have conducted themselves in such a way that they are a credit to themselves and also to the school. The Stevens Dance had been previously arranged regardless of whether we won or lost. The auditorium was so crowded that it was impossible for all to be dancing at the same time. As closely as we could estimate, nearly 300 attended which included at least forty Claremont students. I was very happy to see the fine spirit manifested on the part of the Claremont students even though they lost. The following Friday night about fifty of the Towle students went to Claremont to their Football and Hockey dance. The spirit of good fellowship between the two schools is something I hope will last for a long, long time.

I would like to take this opportunity to compliment Mr. Malcolm Rowell, who became a member of the Towle faculty this year, who is doing an excellent bit of work as director of the Newport School Band and Orchestra. For the past month most of the members of his band have been doing a very out-standing and patriotic duty by playing several numbers down at the railroad station for the men leaving for the service. They have done this regardless of the weather. Not only Mr. Rowell, but the members of his band certainly are to be complimented. Besides this phase of performances of Mr. Rowell and the members of the band, they have done an excellent job throughout the school year appearing for many functions in conjunction with various school affairs.

On June seventeenth the Class of 1942, with sixty-four members, graduated. They did not establish a new record of being the largest class in the history of the town, but scholastically they were much above the average. From this group twenty-two are in some institution for higher learning and nine, at the present time, are in the service.

Due to the war, there have been quite a few changes in the teaching staff of Towle High School with only three of last year's faculty left. I am glad to say that the new teachers are doing an excellent job of teaching.

May I take this opportunity to thank the faculty, the students, the parents, and the community for their excellent cooperation which has been a great factor in making the high school a success in the town of Newport.

Respectfully submitted,

FORREST E. RICHARDS, Headmaster.

NO-SCHOOL SIGNAL

When the weather is so bad that it is inadvisable for children to attend school, the no-school signal will be sounded by the fire whistle at 7:30 in the morning. The signal is 2-2-2. When it is necessary to close school in the morning it will mean that school sessions will be omitted all day. It would be practically impossible to get bus and tuition pupils to attend an afternoon session only.

On no-school days a pre-arranged system of telephoning gives notice to those who transport school children, to teachers, and as far as possible, to out-of-town tuition pupils. Persons who are doubtful about the no-school signal should call the Superintendent or some other member of the school department rather than the fire station. Unnecessary calling of the fire station might interfere with emergency calls which should reach the fire department quickly.

REPORT OF SCHOOL NURSE

Mr. Alfred W. Smith
Superintendent of Schools
Newport, New Hampshire

Dear Sir:

I herewith submit my annual report as School Nurse for the Newport School District covering the period from February 1, 1942 to February 1, 1943.

The period which the report covers has been filled with the usual school health activities, such as teeth, tonsils, and tuberculosis clinics and the usual follow-up work that they require has been carefully carried out. The big loss of school time has been caused as usual, by the common colds. In the case of our bus pupils, I am willing to believe that this condition has been aggravated by the irregularity of busses' time of leaving which very frequently causes children to stand around in sub-zero temperatures.

Free milk has been distributed as usual in the Primary, Richards, and Rural schools. Some products such as apples, grapefruit, raisins, and nuts received through the Federal Surplus Commodity Corp. have been distributed, largely to noon-day lunch pupils. Many of the children could benefit by a better noon-day lunch: on the whole however, my inspection of lunches has shown that they are well balanced and adequate.

Many of the teachers have expressed to me their feeling that the smaller children are adversely affected by the early hour that school begins.

The question of posture and the need for corrective exercises has been given due consideration and a start in this direction has been made in the Annex of Richards School. We are in hopes by this start to develop a method whereby the posture and carriage of our children may be improved.

In closing, may I express to you my appreciation of the support you and your teachers have accorded me.

Sincerely yours,

ANNA DONOVAN, R. N.

School Nurse
